Fishing Fleet Movements.

Sch. Priscilla was at Shelburne, N. S., on Wednesday.

Sch. I. J. Merritt, Jr., of Provincetown has hauled up for the winter.

Monday, Dec 8th

Herring Notes.

Sch. Rival is bound home from Bay of Islands, N. F., with a full cargo of salt herring.

The Western Star says: "The herring fishery in Bay of Islands has been a splendid success to date. The best proof of this is the fact that fifteen vessels have sailed from this port with cargoes aggregating 21,000 barrels. During the early part of the week fishing was a little slack in Middle Arm, although good catches were secured in deep water; in North Arm the fishing was good and upwards of 300 boats are participating in the fishery. At this writing the fish are abundant in Middle and North Arms, and all the vessels that comprised the first fleet to arrive will load and clear this week. A large number of vessels arrived during the week, and many others are on the way for frozen herring. The fishery to date has been equal if not ahead of this date last year. In fact evidence goes to show that more herring have been taken to date than at this time last year. If we are not mistaken, the fishery this season will prove a greater success than ever before."

At Bonne Bay herring are abundant. Three American vessels are there loading.

From Placentia comes the news that while herring have been seen in large quantities in the mouth of the Bay, and as far in as Placentia Harbor, very few have yet appeared at Sound Island or Woody Island.

Fishing Facts and Fancies.

Sf. Pierre has two dory factories, a foundry and a biscuit factory. Its streets and some houses are lighted by electricity. Its merchants are purchasing a number of Canadian vessels for the bank fisheries. A large number of Newfoundlanders are employed there.
